ACCUBUILT ANNOUNCES THE CONSOLIDATION AND INTEGRATION OF DABRYAN OPERATIONS INTO LIMA, OHIO FACILITY

LIMA, OHIO – Accubuilt announces the consolidation and integration of its Limousine Division and DaBryan brand from its Springfield, Missouri facility into its Lima, Ohio facility. The engineering advancement and manufacturing efficiencies in Lima now allows for the production of DaBryan VIP limousines and SUV limousines in the Lima facility.

Greg Corona, Chairman and Chief Executive Officer of Accubuilt stated “During the past two years, we have implemented a variety of lean manufacturing systems and engineering practices in our Lima operations to meet the highest standards of vehicle production for our dealers and customers. Our supplier network and manufacturing improvements now provides the ability to produce DaBryan branded vehicles with the standard of quality and dependability that DaBryan customers have enjoyed for over 30 years.” Corona further indicated, “The distinct appearance of the DaBryan models will remain unchanged from their present design and style as we implement a seamless transition between our two facilities.”

Beginning in the third quarter of 2010, all DaBryan vehicles will be produced exclusively in the Lima facility. In the meantime, DaBryan vehicles will be produced in both our Springfield and Lima facilities. DaBryan sales, marketing and customer service will remain in the Springfield facility until further notice. Dan Mitchell and Ed Macdonald will continue in their existing management capacities and oversee the DaBryan operations with Larry Doyle, Accubuilt’s President and Chief Operating Officer. Accubuilt will continue to provide additional information as the transition plans are implemented. In the meantime, if you have any questions or would like additional information, please contact Ed Macdonald or Dan Mitchell.
